NEW TERROR ADDED TO LIFE IN IRELAND BY BLACK AND TANS

Criminals, Posing as Government Agents, Effect Raids for Plunder.

BY WILLIAM H. BRAYDEN.
Special cable to The Star and Chicago Daily News. Copyright, 1920.

DUBLIN, October 23.—New terror has been added to life in Ireland by criminals posing as government agents, "black and tans." Raids by armed forces are now familiar to everybody and those engaged in them are accused of both violence and pillage. This has encouraged the ordinary criminals and according to a report issued by Dublin Castle, raids have been made by men, acting without any authority whatever, who are merely out for plunder.

It is said that the government is succeeding in rounding up wanted men who have been evading arrest. The police of fugitives has been made so difficult for them in the country that they are being driven into Dublin, where it is easier to hide. This is likely to lead to numerous raids here in the hope of discovering the whereabouts of the fugitives.

The authorities in Dublin making raids have ceased to take risks. Attacks on motor lorries waiting in the street while the men were raiding houses led to the death of some of the men. Today a new feature was added to the method of procedure—that of clearing an entire street. Though O'Connell street is the principal thoroughfare of the city and the center of the street car service, soldiers with turreted and armored cars took possession of the street. Traffic was stopped at both ends. Trias and vehicles being kept outside the cordon. Everybody who came near was stopped. Several enterprising newspaper photographers were searched and their plates confiscated.

The first newspaper prosecution under the new control act was brought against the Freeman's Journal, two of whose directors are to be tried by court-martial today on the charge of distributing news alleged to be false and likely to cause disaffection. It is believed that this is the first time in history that newspaper offenders have been tried by military officers in time of peace.

Blamed on Black and Tans.
The offending paragraph was twelve lines long and contained the statement that the murders of two policemen at Tullow and Carlo were committed by "black and tans" because the two men had resigned from the police. A further statement was that the raid on the mails in the same district was also the work of black and tans.

The fact is that in many cases the Sinn Féiners and the government are constantly charging each other with particular outrages. Under the recent act it is a criminal act not merely for a newspaper to publish, but for a correspondent to transmit news likely to cause disaffection. As this character attacks, much of the Irish news at present, most of the correspondents commit criminal offenses daily.

The court-martialing of the Freeman's Journal men is evidently intended as a warning to newspapers to cease their attacks. The two chief proprietors of the paper.

FRENCH REBUILDING SHOWING PROGRESS

Ten Pillaged Departments Have Produced Million Tons of 1920 Wheat.

BY PAUL SCOTT MOWBRER.
Special cable to The Star and Chicago Daily News. Copyright, 1920.

PARIS, October 23.—Slowly but surely, though imperceptibly from day to day, the reconstruction of France is progressing to an extent which in the larger perspective is striking. François Maitre, minister of finance, in a speech at Strasbourg, has just given the following figures:

"Of the factories sacked or destroyed 77 per cent have now resumed production wholly or partially with 42 per cent of the pre-war personnel. Of 1,757,000 hectares (4,239,790 acres) of land rendered barren by the war, 1,520,000 hectares (3,754,400 acres) have been leveled and cleared, of which 66 per cent has been planted and 50 per cent sown this year. The ten invaded and pillaged departments of France have produced this year 10,000,000 quintals (about 1,000,000 tons) of wheat or one-sixth of the nation's entire production and one-fourth of the nation's oat crop.

"Of 3,000 kilometers (1,980 miles) of railroad destroyed all save 9 kilometers (nearly 5 miles) have been rebuilt. Even the choked and flooded coal mines, the normal production of which is 20,000,000 tons a year, but from which scarcely a ton was expected for several years more, have this year furnished 2,000,000 tons."

Wilhelm Arouses Dutch by Buying Only in Germany

AMERONGEN, October 23.—The "made in Germany" signs still visible to the former German emperor. Though he is reported to feel that his country treated him shamefully, nevertheless he continues to buy for himself and his little court at Doorn German goods, sent direct from Berlin when possible, notwithstanding the fact that he has been in Holland nearly two years. This was most recently demonstrated when, in furnishing the little hospital memorial of his stay in Amerongen, he had practically every stick of furniture and other equipment sent from Berlin.

In revenge, it is said here, Dutch tradesmen with whom the exile has to deal at Doorn, and also the workmen whom he has to engage from time to time, charge him all that the traffic will bear.

40,000 SEE START OF BALLOON RACE

Frenchman Is First to Leave Birmingham in Gordon Bennett Contest.

BIRMINGHAM, Ala., October 23 (by the Associated Press).—To the strains of "The Marseillaise" and amid the cheers of 40,000 people, the French entry in the international Gordon Bennett trophy balloon contest hopped from Birmingham at 4:32 this afternoon, followed at short intervals by the other six contestants.

The French bag was piloted by Capt. Louis Hirschauer, with M. Leo C. Nathan as aid. It sailed almost due west, though slightly north of the setting sun, and quickly disappeared in the haze.

As the take-off progressed the wind died down gradually, and each succeeding bubble left the ground more slowly than the one preceding. The United States Army balloon left the field at 4:41, piloted by Lieut. R. E. Thompson and Capt. Harold Weeks.

The "Belgica," official Belgian entry under the direction of Lieut. Ernest De Myster and Lieut. M. Labrousse, rose in the air at 4:48.

Two Italian Entries.
Majs. J. Valle and D. Leone, in the Italian balloon "Audace," followed the Belgians at 4:50, and after them came the American entry "Kansas City II," piloted by the winner of the national elimination race, H. E. Honeywell of St. Louis, and Dr. Jerome Kingsbury, aid. The "Kansas City II" left at 4:54, heavily laden with ballast.

The "Triumph," second Italian entry, piloted by Maj. H. Madari, and Lieut. A. Pirazzoli, hopped off at 5 o'clock sharp.

The "Audace," piloted by Ralph Upjohn, an international champion since 1913, with W. T. Van Orman, as aid, left the field last, just as the hands of the clock were pointing to 5:05 o'clock.

All the contestants were a few minutes behind schedule in taking to the air, but the hop-off was entirely successful, there not being a single hitch.

A unique feature of the French and Belgian entries is that the bags are of a bright orange color, the pilots explaining that this special color will resist the sun from stiffening and breaking.

Like Bubbles on Horizon.
The most beautiful of the balloons were those from Italy, which, painted silver, resembled great soap bubbles as they were caught by the rays of the setting sun. They weighed approximately sixty pounds less than the other entries, because of the almost total absence of netting in their equipment.

Half an hour before the race began, the pilot balloon "Birmingham," carrying newspaper men and a representative of the Birmingham Chamber of Commerce, took the air. This "trail blazer" will land at noon tomorrow. Lightly ballasted, the "Birmingham" ascended very rapidly until it had reached an altitude of more than 2,000 feet, when it sailed away very rapidly to the northwest.

MUNITIONS FOR FLOUR.

Bolshevik Gunboats Escort Supply Craft in Black Sea.

CONSTANTINOPLE, October 19 (by the Associated Press).—Three bolshevik gunboats—the Elena, Zikita and Kozorna—are operating in the Black sea, with their base at Novorossiisk. They are conveying small coasters to Trebizond; the latter are exchanging munitions for national flour. It is also known that two red submarines are in the vicinity of Nikolalev. British destroyers were on the lookout for all of these craft.

Eleven United States destroyers now will be in these waters, but it is said that their instructions are such as would prevent interference with bolshevik war vessels unless they committed acts of piracy or against the laws of humanity.

Rear Admiral Newton A. McCully has returned to Sebastopol and is closely observing the reported movements of these craft.

AIDS GERMAN UNIVERSITY.

BERLIN, October 23.—The mayor of Frankfurt has announced that an endowment of 1,500,000 marks has been made to the Frankfurt University by James Speyer, a New York banker, in memory of his deceased sister, Mrs. Eduard Beit Von Speyer.

ENGLISH FREIGHT DROPS ABOUT 50 PER CENT

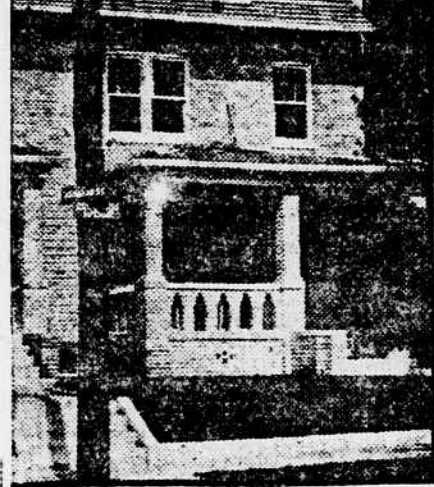

Increase in World's Shipping Tonnage Is Blamed by Experts for Situation.

LONDON, October 23.—There has been a big drop in freights during the past few months, a shipping authority has informed the Liverpool Post. Taking the market all round, he said, freights have fallen by about 50 per cent since the beginning of the year. This situation is attributed to the increase in the world's shipping tonnage and the general scarcity of goods for export. Ships are leaving London and other United Kingdom ports with part cargoes.

"Before the war the United Kingdom was the carrier for half the goods of the world," said the shipping man. "Our share is now about one-third. The United States, which before the war owned a nominal amount of tonnage, is now our chief competitor and swallows much freight that would otherwise be carried in British holds. Operating costs are tremendously high, the coal item being one of the biggest factors."
